"We were impressed with the quality, design, functionality, and architecture of the products created by finnovate. Thank you for taking the initiative, and showing us the capabilities"

"finnovate's tools continue to be a popular feature of our web site, and we are pleased to offer additional tools with your help"

Client Case Study – SmartSAVER

Personalized RESP Forecasting and Grant Matching Solution

About SmartSAVER

SmartSAVER is a government funded organization that helps Canadian families start saving for their children's education with information on government grants and online access to get savings started.

Helping SmartSAVER engage consumers like never before

SmartSAVER.org is leveraging the financial empowerment tools offered by finnovate to visually highlight the benefits of RESPs, the Canada Learning Bond, the Canada Education Saving Grants (CESG) and various provincial savings grants.

With the help of finnovate, SmartSAVER is lowering the barriers Canadians encounter when they start to think about saving for post-secondary education.
